INDUSTRIAL LUBRICANTS

High performance lubricants designed to reduce friction, improve efficiency and extend the life of your equipment.

FEATURES

- Excellent wear & corrosion protection
- High thermal stability & oxidation resistance
- Improves equipment life & performance
- Reduces downtime & maintenance cost
- Suitable for a wide range of industrial applications

APPLICATIONS

- Manufacturing
- Heavy Machinery
- Automotive
- Construction
- Power Generation
- Marine
- General Maintenance

AEROSHELL FLUID 41

Premium Synthetic Aviation Hydraulic Fluid

- Excellent low temperature performance
- High resistance to oxidation
- Superior anti-wear protection
- Compatible with aircraft systems
- Meets MIL-PRF-5606H Type IV

PACK SIZE
5 Litre
18.9 Litre

Type	Synthetic Hydraulic Fluid
Viscosity	ISO VG 15
Flash Point	> 200°C
Pour Point	-54°C
Application	Aircraft Hydraulic Systems

MOLYSLIP COPASLIP

High Temperature Anti-Seize Compound

- Protects up to 1100°C
- Prevents seizure, corrosion & galling
- Suitable for extreme pressure conditions
- Copper based for superior protection

Base	Copper
Temperature Range	-30°C to 1100°C
NLGI Grade	1
Appearance	Copper Paste
Application	Bolts, Nuts, Studs, Flanges, Threads

CUTTING OIL

High Performance Metal Cutting Oil

- Excellent cooling & lubrication
- Improves tool life & surface finish
- Reduces friction & heat
- Suitable for all ferrous metals

Type	Mineral Oil Based
Viscosity	ISO VG 32
Flash Point	> 180°C
Pack Size	1 L, 5 L, 210 L
Application	Turning, Milling, Drilling, Tapping, Grinding

WD-14 MULTI-PURPOSE SPRAY

Penetrant, Lubricant & Moisture Displacer

- Penetrates rusted parts
- Drives out moisture
- Lubricates & protects
- Cleans surfaces
- Stops squeaks
- Safe on metal, rubber & most plastics

Type	Multi-Purpose Penetrating Spray
Pack Size	450 ml Aerosol
Composition	Mineral Oil, Penetrants, Corrosion Inhibitors
Application	Automotive, Machinery, Tools, Hinges, Chains, Bolts, Nuts, Locks & more

CHAIN LUBRICANT

High Performance Chain Oil

- Excellent adhesion & penetration
- Reduces wear & friction
- Protects against rust & corrosion
- Suitable for high speed chains

Type	Synthetic Chain Oil
Pack Size	500 ml Aerosol
Operating Temp.	-20°C to 150°C
Application	Roller Chains, Conveyor Chains, Industrial Chains

RUST PREVENTIVE OIL

Long Term Corrosion Protection

- Provides long term protection
- Displaces moisture
- Leaves protective oil film
- Ideal for storage & shipment

Type	Rust Preventive Oil
Pack Size	1 L, 5 L, 20 L, 210 L
Film Type	Oily Protective Film
Application	Machinery Parts, Metal Components, Tools, Storage & Shipment
